AN UP-TO-DATE VARIETY OF

WOOD MANTELS
AND FIREPLACES

PRESENTED AS A SUGGESTION OF THE ARTISTIC EFFECTS
POSSIBLE IN MANTEL CONSTRUCTION

HORNET MANTEL CO.

1112 TO 1120 MARKET STREET

ST. LOUIS, MO., U. S. A.

ANNOUNCEMENT

IT IS OUR pleasure to present you herewith our Catalog. We have endeavored to make each illustration as exact and clear as the art of photography and engraving can make it.

We realize fully that work of the kind we furnish must occupy for many years a prominent position in one's home, year in and year out, and our constant aim is to offer only such goods under our name, as will reflect upon us the greatest degree of credit.

We carry in stock a full line of such Mantels as shown in Catalog, as well as many other designs and are prepared to make prompt shipment. Should you have an opportunity to visit St. Louis it will be our pleasure to have you call on us and inspect our goods in our show room, which is the largest and most complete west of New York City. We beg to call your attention to the following important information.

I M P O R T A N T

- 1st. QUALITY. Our Mantels are made in large quantities, reducing the cost of Manufacture, always keeping in mind quality and workmanship.
- 2nd. LUMBER. The lumber used in constructing our Mantels is carefully selected for the best possible grain effects that nature can produce, and is thoroughly seasoned and kiln dried before entering in to the construction of our Mantels.
- 3rd. CARVINGS Are in keeping with the general design of the Mantels upon which they are used, and in most cases carved out of the solid wood showing plainly the skill of the artist. We do not use composition or imitation carving as same can never be made to have the elegant appearance and the durability that is so essential to a beautiful Mantel.
- 4th. MIRRORS. We use nothing but French bevel plate mirrors in all of our Mantels except in a few designs the bevel plate is not appropriate or in keeping with the design of the Mantel. Under each cut the size of the mirror used is given.
- 5th. FINISH (Except where otherwise stated) we use nothing but our very best Piano Polish finish which is noted for its durability and brilliant lustre.
- 6th. SIZES. Our Mantels are made the standard width, which is five feet. They can, however, be made several inches wider by extending the wall plates. For this we make no extra charge when stated in order.
- 7th. SPECIAL DESIGNS. We would be pleased to quote prices on special designs submitted to us.
- 8th. FANCY WOOD AND FINISHES. Such as genuine Mahogany, Cherry, Bird's-eye, or Curly Maple, Curly Birch, White and Gold, etc., made to order at an additional cost, depending on the Mantel wanted. Special prices on same will be quoted on application.

- 9th. ENAMELED TILES. We carry only the best quality of enameled tiles, and we have a full stock of the latest colors, consisting of various shades of green, blue, pink, dark wine, olive, old gold, old rose, white, and all kinds of mottled tile. We also carry a large assortment of beautiful decorated white and gold tile, imported brick tile, dull or gloss finish on which special prices will be quoted, if color of tile is not specified in order, we will select such colors as are best suited to the Mantel.
- 10th. MOUNTING TILE IN SLABS. Ready to set. When prepared in this manner they can be set in place by anyone, and do not require the service of a skilled mechanic. If you desire a nice smooth job of tile work, and cannot command the service of a good tile setter, we recommend that you have us mount the tile for you. For prices and illustrations see page 79.
- 11th. FLOOR TILES. We furnish tiles for wainscoting, floors, porches, vestibules, bath-rooms, halls, etc., and will on application quote prices on tile floors, and furnish colored plans showing designs when the correct measurements of the space to be tiled are given, we suggest that you send diagram showing sizes.
- 12th. GRATES. We show styles of Grates which are made of good castings, highly polished and with durable plate in brass, copper, bronze or nickleplated, and are interchangeable, that is to say you can use any grate you may select with any Mantel shown in the catalog. The fireplace opening in your chimney should be left say thirty inches high, thirteen inches deep, and either twenty-four or thirty inches wide, owing to the size of grate selected.
- 13th. FIRE BRICK OUTFITS do not include the fire brick, as same can usually be bought in your town for less than the freight would amount to, but in cases where you cannot purchase fire brick in your town, we would furnish same on request, at reasonable cost.
- 14th. FULL AND COMPLETE DIRECTIONS For setting Mantels, Grates and Tile work will be found on page 6, by following these directions anyone can set up their own Mantels, if they so desire, as they are explicit in every detail.
- 15th. CHIMNEY BREASTS. They should always be built as near five feet in width as possible, as that is the standard width of all Mantels.

DIRECTIONS FOR SETTING

WOOD MANTELS, TILE AND FIREPLACES: See that your chimney is well built and sound, and an arch is turned for the hearth, if brick arch is not turned fill in with concrete composed of cinders and cheap cement to about one inch below floor—but we would recommend the turning of brick arch.

In the box with the tile will be found diagram showing size and how the hearth is to be laid out. Now lay out the hearth as per diagram, get the exact size of same and cut out floor to fit hearth, allowing one-quarter of an inch for spreading. Put all the tile to soak in clear water, letting them remain there one hour, and then lay them out to drip.

Now mix up some good Portland cement (one-third cement and two-thirds clean sharp sand) and put this on the concrete, leveling same by using a straight edge with notches cut out one-quarter of an inch at each end. This straight edge should be three inches longer than the hearth. Now commence at back of hearth and draw straight edge forward or backward until cement is perfectly smooth and level. Now lay in tile as per diagram commencing in the front. After the tile are all laid and fitted nicely in place, hammer them down lightly to level of floor with a small block of wood about twelve by four inches. When you have them all nicely in place, level and evenly placed, mix up a little pure Portland cement quite thin, and wash it over the surface, working it into the joints where needed. After this has partially set, wipe the tile perfectly clean with sawdust or a damp sponge. All the cement should be cleaned off the tile, as it is very difficult to remove after it has set.

Let cement set thoroughly before proceeding. Now plug wall and screw up mantel fast to the wall, having done this build a brick arch back of Mantel, leaving one and one-quarter inches for cement and tile. Now take a straight edge one inch longer than Mantel opening, and place your cement on arch, then draw straight edge upward until cement is perfectly smooth. Now put up Tile facing commencing at bottom, and tamp each tile as you put it up. Having done this let facing set for a few hours. Now tie four wires about twelve inches long on grate frame, and place frame on front of facing, and drive four spikes into fireplace to which fasten your wires. Now set basket in fireplace and build fire brick to fit basket.

HOW TO MIX CEMENT FOR PUTTING UP FACINGS: One-third Portland cement, one third slack lime, and one-third sand, mix together thoroughly.

NOTE: The portion of above directions regarding setting of Tile flooring and hearth applies to cases where Tile facing has not been ordered mounted.

NOTE: If hearth is ordered mounted it is only necessary to lay same down and mark around it, and cut out floor the proper size to receive it, and then see that it is evenly bedded in good cement, or good rich mortar.

NOTE—If Facing is ordered mounted all that is necessary is to place same in proper position. See diagram page 79, and then build in behind facing solid with common brick and mortar.

NOTE—If you have Mantel with a Monarch Grate, as shown in outfits D build up your fireplace inside to match the back of the grate, so there will be no down draft, and no pockets, leaving enough space only for the dampers to work freely, about one-half inch all around, then set grate into opening using small portion of cement at bottom of edge to keep grate from working out. This done grate is now ready for use.

OUR LIBERAL TERMS PROTECT OUR CUSTOMERS

1st. All prices quoted in Catalog No. 43 are for goods delivered in good order, on board cars at St. Louis, Mo., and are subject to a confidential discount.

2nd. We pack each article carefully, and we make no charge whatever for packing or cartage.

3rd. To customers who are satisfactorily rated in commercial books of Dun's or Bradstreet's and who accompany their order with satisfactory bank references, we will allow 30 days in which to pay all invoices.

4th. Customers who are not rated in the commercial books of Dun's or Bradstreet's, and do not accompany order with references, must, as evidence of good faith, send 20 per cent of the net value of the goods with order, and authorize shipment sent C. O. D.

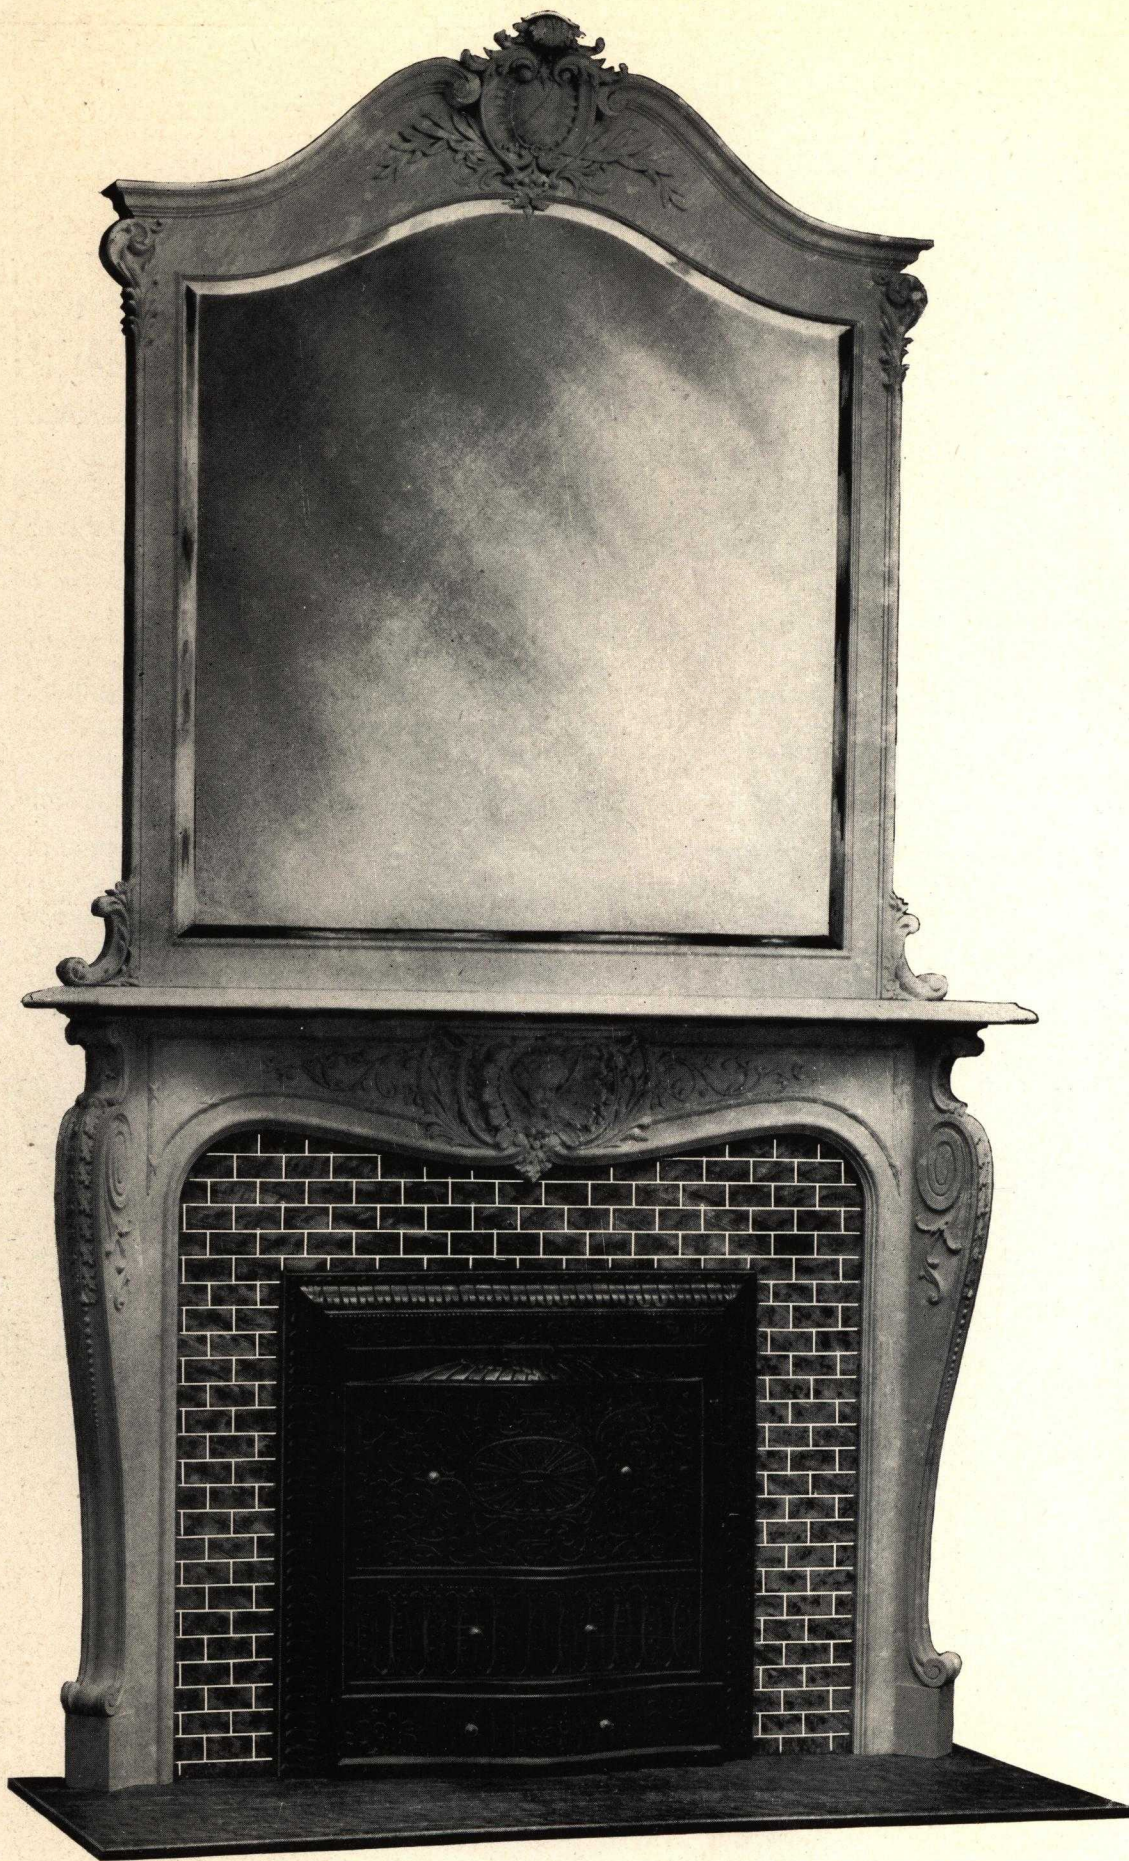

5th. CASH CONCESSION. We will allow discount of 5 per cent off on all orders accompanied by cash.

OUR GUARANTEE

Every article is guaranteed by us to be strictly as we represent it in every respect, or goods may be returned at our expense, and money will be refunded. We know of no other firm issuing a stronger guarantee than the above. All we ask is that you favor us with your order, so we can demonstrate to you that our goods are all that we claim for them.

Outfits

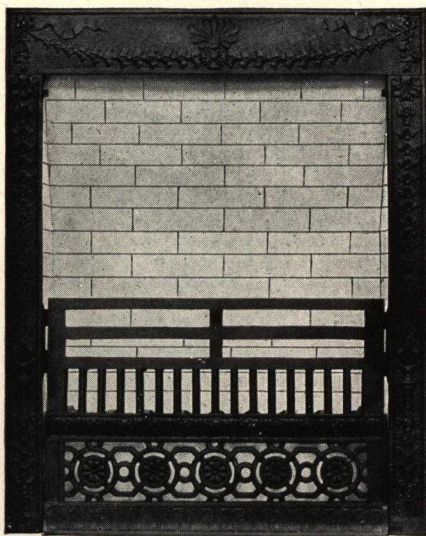

REGARDING OUTFITS. The following Outfits can be furnished with Mantels shown in this catalog. You will find each Mantel is priced with the various Outfits. In ordering be sure and specify which Outfit is wanted with each Mantel ordered.

OUTFIT "A" consists of Fireplace No. 1359. Combination Grate $24\frac{1}{2}$ inches wide and $30\frac{1}{4}$ inches high. 20-inch Berlin black basket and plated summer front.

FACING—Best quality Enameled Tile (any color).

HEARTH—60 x 21 inches best quality Enameled Tile (any color).

"A" Basket

Extra heavy. 9 inches deep only. 20, $21\frac{1}{2}$ and 24-inch square back.

DESCRIPTION OF COMBINATION GRATES. The No. 1359 Combination Grate which we show is one of the most handsome and complete grates of its kind on the market. The basket is heavy iron and hangs on the frame. The fire brick should be built to fit snugly up to the basket, the basket is so made that it is very easy to poke out the ashes. The frame and summer front is handsomely plated. The grate is suitable for burning soft coal or wood.

Regarding fire brick see page 5.

Outfits

OUTFIT "C" GAS GRATE. These Gas Grates are recommended for use when continued furnace heat is not required, or in connection with same for service and appearance, and give sufficient heat for all moderate climates.

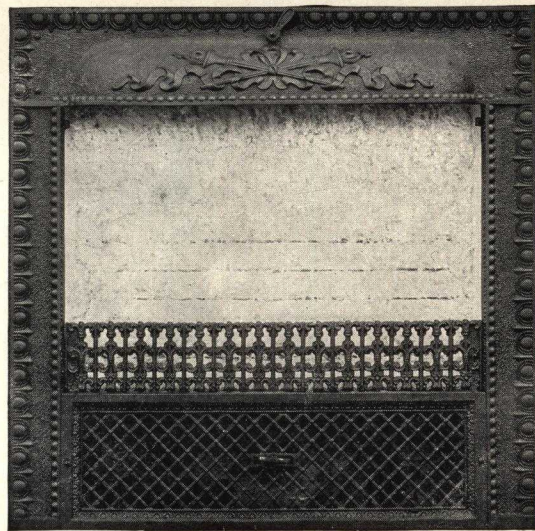

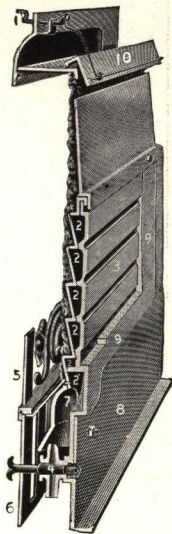

No. 975 30½ inches wide, 30¼ inches high.

No. 975 24½ inches wide, 30¼ inches high.

All Gas Grates must have a vent and damper must be left open when in use. We guarantee this to be the best Gas Grate made and to work satisfactorily when properly connected.

1. Damper Rod.
2. Gas Chamber.
3. Cast Iron Back to Burner.
4. Valve.
5. Fret.
6. Crown.
7. Mixer.
8. Sheet Iron Back.
9. Reservoir and Canal to feed each row.
10. Damper

Sectional View

The Multiple Burner Gas Grate showing separate gas chamber (No. 2) for each row of burners, the lower chambers being larger than the upper one form a reservoir to feed them when grate is turned low. These chambers are fed from a canal at each end extending up from lower reservoir. The back of gas chamber is of cast iron and will not rust out from moisture in chimney.

Outfits

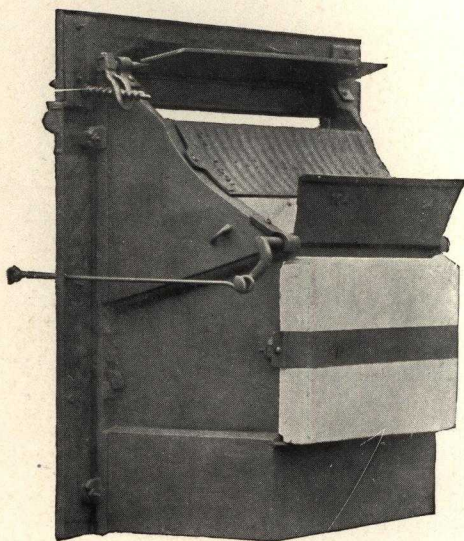

Buckeye Grate No. 1035

24½ inches wide, 30¼ inches high, 20-inch basket 12 inches deep.

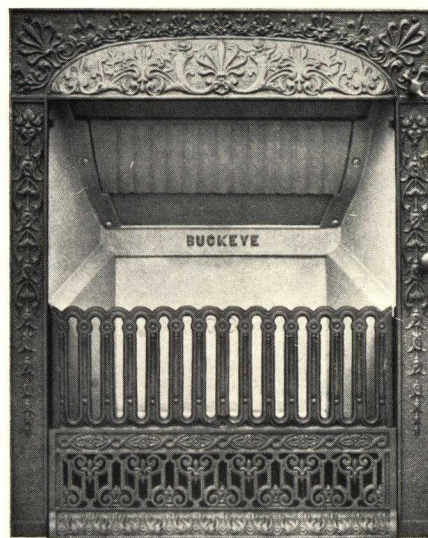

OUTFIT "B," consists of Fireplace No. 1035. Plated Buckeye Grate 24½ inches high with 20-inch basket and plated summer front.

FACING—Best quality Enameled Tile (any color).

HEARTH—60 x 21 inches best quality Enameled Tile (any color).

Side view showing damper arrangement.

Interior view of Buckeye Grate using summer piece to ash screen, or crown.

DESCRIPTION OF BUCKEYE GRATE No. 1035

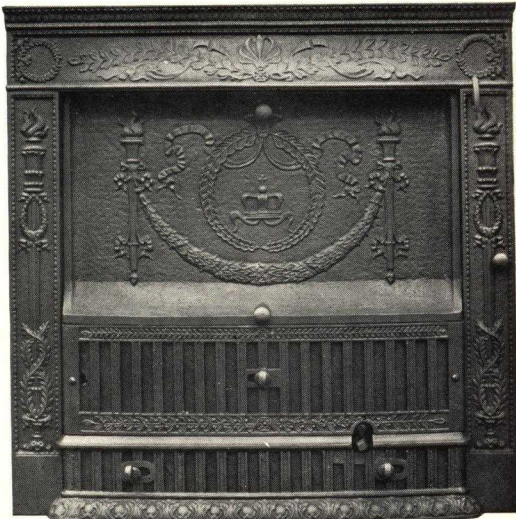

The Buckeye Grate which we show above is without doubt one of the most beautiful grates of its kind ever produced, it has all of the desirable features of the Monarch Grate, having the same damper arrangement and also a shaking bottom. The fire pot is lined in the back with fire clay lining, while the sides are of very heavy iron. These grates being made all in one piece like the Monarch, they do not require any skilled labor or expense in setting, while they are not quite as heavy as the Monarch, still they will prove to be excellent heaters, and will warrant them to give perfect satisfaction.

Outfits

OUTFIT "D" consists of Fireplace No. 1116 Plated Monarch Grate $30\frac{1}{2}$ inches wide, $30\frac{1}{4}$ inches high with 24-inch basket and Plated summer front.

Facing—Best quality plain Enameled Tile (any color).

Hearth—60 x 21 inches best quality plain Enameled Tile (any color).

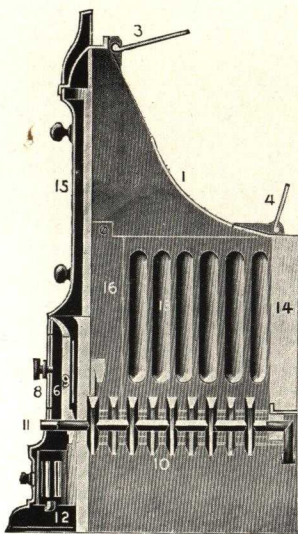

No. 1116

$30\frac{1}{2}$ inches wide, $30\frac{1}{4}$ inches high. 24-inch grate.
 $24\frac{1}{2}$ inches wide, $30\frac{1}{4}$ inches high. 20-inch grate.

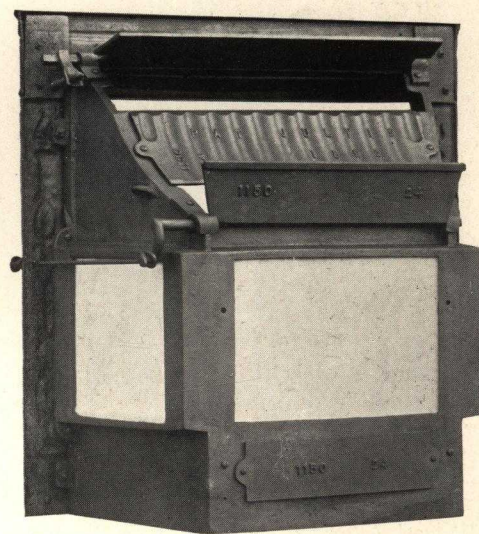

Open view of Monarch Grate.

Sectional and side view of The Improved Monarch Grate.

- No. 1. Crosspiece, loose.
 3. Upper damper.
 4. Lower or direct damper.
 6. Ash space between baskets.
 8. Outside basket with slide.
 9. Inside basket or fire front.
 10. Shaker fingers.
 11. Shaker head.
 12. Ash screen or crown piece.
 14. Fire tile.
 15. Summer piece.
 16. Jamb which can be removed so as to replace tile.

Side view of square back series showing damper arrangement.

We recommend Monarch Mounted Grates to those who desire the comforts of a furnace and the cheer of an open fireplace. They are made like a stove, complete all in one piece, and do not require the service of a skilled mason to set them. The fire pot in the Monarch Grate is lined with heavy fire clay lining that will not burn out and also has latest improved shaking bottom. These grates are supplied with double dampers which are operated from the front with knobs (see illustration).

The lower damper is immediately over the fire, and in opening same you heat the flue forming a current that carries off the dense smoke.

Mounting Tile in Slabs

When prepared in this manner they can be set in place by any one, and do not require the services of a skilled mechanic. The beauty of a Mantel depends largely upon how the tile facing and hearth are set, and if you desire a nice smooth job of tile work and cannot command the services of a good tile layer, we recommend that you have us mount the tile for you. We take particular pains in packing the slabs when mounted, and always ship the large slabs packed on edge, which we find to be the very best way to ship them, as they very seldom reach destination in other than perfect condition.

THE ABOVE CUT SHOWS TILE FACING SLABBED IN 3 PIECES

Price for mounting tile facings in slabs ready to set \$4.00 extra.
 Price for mounting tile hearths in slabs ready to set \$5.50 extra.
